

**NATURAL
CHEMISTRY**®

*An invisible barrier that
conserves water and heating energy*

COVER
free®
replaces solar cover

- Reduces evaporation by up to 85%
- Prevents heat loss by up to 70%

U.S Patent No. 7,867,412
NET CONTENTS: 32 FL. OZ. (946 mL)

Save Water, Save Heat, Save Money.

*The most efficient
and effective
water and heat
saving product
on the market.*

*Reduces Evaporation
by up to 85%,
decreasing the need
to top up your pool.*

*Prevents Heat Loss
by up to 70%,
allowing for a more
energy efficient pool.*

pH neutral

**Quick
Reference:**

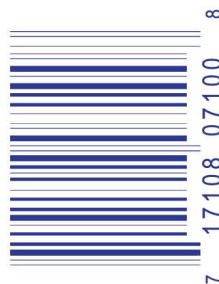

Rectangular
18' x 36' =
20,000 gallons

Round
28' =
20,000 gallons

**CAUTION: KEEP OUT OF
REACH OF CHILDREN.**

MAY IRRITATE EYES OR SKIN.

**STORE BELOW 120°F
DO NOT ALLOW
PRODUCT TO FREEZE**

20120710001

- **COVERfree's** patent pending advanced mono-layer technology offers users the ability to save water and money by decreasing evaporation.

- A mono-layer, one molecule thick, is formed on the water surface. Surface tension allows it to remain in place or reform during swimming.

- **COVERfree** reduces water evaporation by up to 85% or up to 60 gallons per day! Saving money on many levels: Reduces make up water addition, reduces chemical additions and rebalancing water after additions.

- **COVERfree** reduces water heat loss by up to 70%. The heating of pool water can be very expensive. Heat escapes water through evaporation, therefore costing money. Keep the heat, reduce the costs.

Directions:

Shake well.

Recommended Dose: 4oz. per 20,000 gallons of pool water (667 sq. ft) per week .

Using the measuring guide (on the side of the bottle), squeeze recommended dose over surface of pool water.

**When using your weekly dealer
recommended pool chemical program -
include Natural Chemistry's
Pool Perfect + PHOSfree for
unsurpassed water quality!**
