It is critical that all parts be carefully inspected prior to installation. If any damage occurred in transit, Aqua Creek Products, LLC must be notified within three days of receipt of unit.

Proper installation cannot be overstressed, as an improper installation voids Aqua Creek's warranty and may affect the safety of the user.

Scout Solar Charger Cover Installation

The Scout Cover fits over the Scout lift in the fully raised position. The photo below shows the cover on the lift, and note that the solar charger goes through a slit in the back of the cover, so make sure it is turned the right way before putting it over the lift.
