Excellence inside!

BWT ROBOTIC POOL CLEANERS
PROVIDE IMPECCABLE
CLEANING, CLEAR WATER
AND IMMACULATE
SURFACES.

ABOUT BWT

The Best Water Technology Group is Europe's leading water technology business with a staff of 4,500, using cutting-edge methods and new techniques to develop innovative, economical and ecologically friendly water purification technologies to provide private households, industry, commerce, hotels and municipalities with the safest, healthiest and most hygienic water possible for their day-to-day needs. BWT provides modern purification systems and services for drinking water and water used in pharmaceutical and other processes, heating, boilers, cooling and air conditioning and, of course, water used in swimming pools. This includes our robotic pool cleaners, designed and developed to provide optimum filtration of the pool water, removing debris, algae and bacteria. Our employees work particularly hard to create sustainable products that use fewer resources and less energy, thereby reducing CO2 emissions. For you and planet blue!

WHY ARE BWT ROBOTIC POOL CLEANERS THE BEST?

*Because they
offer much better
filtration.*

Where is the point in brushing and vacuuming if particles are released back into the water?

This is, however, the case with standard pool robot filtration. With BWT, it is a completely different story, because Best Water Technology is the international leader in water purification and treatment solutions.

Fine filtration is our core business at BWT.

Unmatched suction power

BWT robotic cleaners feature the **most powerful suction** of any robot on the market. They can achieve up to twice the suction power through precise adjustment of the nozzles.

The closer they are to the surface being vacuumed, the more powerful the suction. Suction can be **adjusted** to efficiently capture the type of debris to be picked up. Thus, close to a beach for example, the nozzles can be set down low to effortlessly remove every grain of sand.

Power inside!

Among the finest filtration performances on the market

BWT robotic pool cleaners are fitted with a **4D filter**, an exclusive four dimensional filter that cleans four times better than any other. The filter fabric features loops that capture the smallest micro-particles.

This means that BWT can **guarantee** one of the finest filtration performances on the market.

Finesse inside!

Ideal for your pool

BWT robotic pool cleaners are perfect for pools of any shape or size, particularly above-ground pools. With their PVC wheels and brushes, BWT robotic cleaners easily navigate **any type of surface**.

PVC inside!

Simple and practical

BWT robotic pool cleaners are **intuitive** and easy to use. Freedom is yours!

Simplicity inside!

Agile on any surface, with an excellent grip

BWT robotic pool cleaners easily **climb the steepest slopes**. Always astonishing to see!

Fast cleaning

BWT robotic pool cleaners move quickly and clean fast. They feature the intelligent and exclusive **Smart navigation system**.

Comprised of a gyroscope and an algorithm, the navigation system scans and detects obstacles, and then **computes the cleaning path**.

The cleaning cycles are shorter and the entire surface to be cleaned is covered.

The pool floor is perfectly clean **with a minimum number of passes**, and in record time.

Smart Navigation!

BWT D LINE 300

Technical data

Pool surface area	up to 1076 sq. ft.
Cleaning cycle duration	1.5, 2 and 2.5 hours
Cleaning type	Floor / Walls / Water line
Brush type	PVC dual brushes + Vibrating brush
Filtration	4D Filter (x2)
Navigation system	Smart Navigation
Particle retention	Down to 2 microns
Drive system	Ultimate Power
App Store or Play Store	Yes
Anti-tangle swivel	Yes
Cable length	75 ft
Adjustable nozzles	Yes
Dimensions (L x W x H)	15¼" x 18½" x 10½"
Weight	2 lbs
Storage accessory	Transport caddy
Guarantee	3 years

Ultimate Power!

BWT robotic cleaners are extremely reliable thanks to a hard-wearing **gear** transmission, a **single drive motor** and a powerful **pump** to pick up debris. This is the **Ultimate Power** system, the ideal solution for fast, optimised travel, unrivalled reliability, and unmatched cleaning.

Energy savings

BWT electric robots clean quickly and efficiently. They consume little energy and provide impeccable cleaning.

Ergonomic

The robotic cleaners are designed and created to be comfortable and easy to use:

- The filter is top loaded for easy access. It is fitted with a hand grip to keep your hands clean while washing the filter.
- Effortless transport and storage, thanks to the robust, practical and attractive transport caddy.
- The power cable features an anti-tangle electrical swivel that allows the robot total freedom of movement.

Anti-tangle electrical swivel inside!

Connected

The BWT D300 APP model comes with a **Bluetooth module**. Using an app that you can download free of charge from APPStore or PLAYStore, control is at your fingertips. Ideal for focusing on problem areas.

You can **navigate freely** to pick up small stones your children just threw into the pool. Your pool, clean in an instant with little or **no effort**.

Safe and reliable

The **safety** of users is of utmost importance.

This is why BWT robotic pool cleaners run off a low voltage transformer and are fitted with a **switch with automatic stop**, as required by European standards.

The devices are also equipped with in water and out of water safety mechanisms.

Adjustable handle

The BWT D300 APP robotic cleaners feature an **adjustable handle**. In its stationary position, it can be used to carry the robotic cleaner, in the water it intelligently **balances the cleaner**, acting as a counterweight.

The handle can be **adjusted** to a diagonal position to optimise the surface area covered by the robot.

Agility inside!

A world made for you!

EXCELLENCE, INTELLIGENCE, INNOVATION

The BWT world is made for you, and its robotic pool cleaners are designed with you in mind.

Don't hesitate, step into an exceptional world.
