

- ✦ ULTRA-BRIGHT PIPE ILLUMINATION
- 🔗 DURABLE, LONG-LIFE PERFORMANCE
- 🌀 NATURAL CONVECTION COOLING
- ✦ UNIFORM, EVEN LIGHTING

CALIGLOW™ PRO

2" POOL LIGHT

CALIGLOW™ PRO 2" POOL LIGHT

BUILT TO MAXIMIZE HEAT DISSIPATION

UP TO 40% LOWER LED TEMPERATURE:

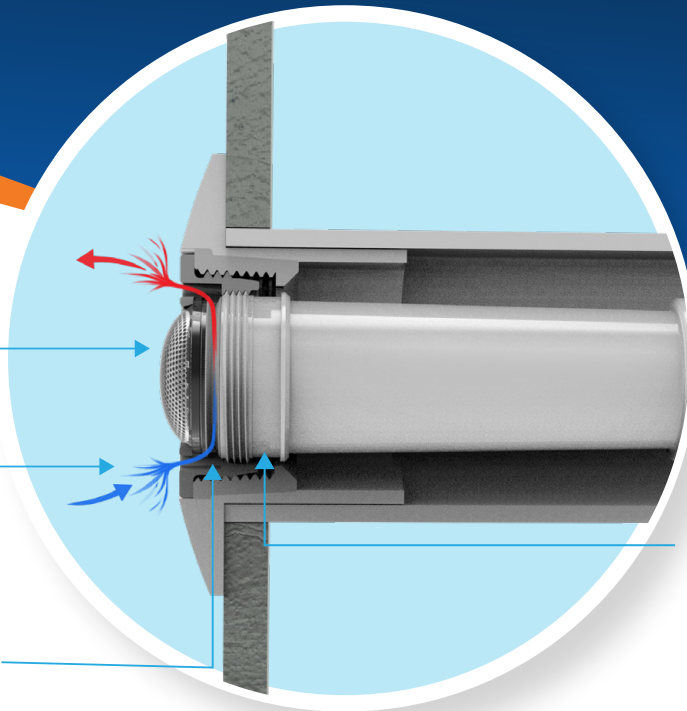

Runs significantly cooler than sealed polymer housings, helping extend LED life and maintain consistent brightness.

NATURAL WATER CIRCULATION:

A passive "chimney" effect moves cooler pool water across the heatsink to keep LED temperatures lower.

PATENTED COOLING GROOVE DESIGN:

Precision-machined grooves create a water-flow channel that directs cooler water upward through the fixture during operation.

STAINLESS STEEL HEATSINK CORE:

Solid marine-grade stainless steel provides excellent corrosion resistance and efficient heat transfer.

HIGH LUMEN OUTPUT

POWERFUL LED CORE:

Produces up to 900 lumens of bright, efficient light in a compact, energy-saving design.

BALANCED BEAM PATTERN:

The lenticular lens spreads light evenly across pool floors and walls for uniform illumination.

UNIVERSAL CONTROL COMPATIBILITY:

Syncs and operates with industry-standard lighting control systems.

LONG-LASTING BRILLIANCE:

Maintains over 90% brightness after 30,000 hours with advanced cooling and corrosion-resistant materials.

2" POOL LIGHT NICHE

BUILT FOR EVERY POOL TYPE

BUILT TO FIT. MADE TO LAST.

Our precision-molded light niches provide secure, watertight mounting for your LED pool lights – no matter the pool surface.

Each model is crafted for durability, corrosion resistance, and effortless installation.

GUNITITE NICHE

Perfect for: Gunitite pools

- Fits standard SP1022 fitting

FIBERGLASS NICHE

Perfect for: Fiberglass pools and spas

- Fits any standard Fiberglass bulkhead fitting with 1.5" thread

VINYL NICHE

Perfect for: Vinyl-liner pools

- Fits any standard Vinyl bulkhead fitting with 1.5" thread

CALIGLOW™ PRO 2" POOL LIGHT

AVAILABLE IN P, J, OR H MODE

CALIGLOW™ PRO LED lights deliver up to 900 lumens of powerful, energy-efficient illumination in a compact design that rivals larger fixtures. Advanced optics provide smooth, even lighting across pool floors and walls, while thermally optimized, corrosion-resistant construction maintains over 90% brightness beyond 30,000 hours. Designed for seamless integration with industry-standard automation systems, these lights synchronize easily for coordinated lighting effects and are available in P, J, and H modes to support fixed colors and dynamic light shows.
