

## STAIN REMOVAL KIT FOR VINYL LINER POOL STEPS

**the  
step  
stuff™**

**Cleans yellow-brown stains off steps  
right before your eyes\***

**\*when used as directed**

**JACK'S MAGIC®**  
**THE STEP STUFF™**

**DIRECTIONS**

- 1). Balance your vinyl liner pool to the following parameters:

|                                 |                 |
|---------------------------------|-----------------|
| Free & Total Available Chlorine | 1-3 ppm         |
| pH                              | 7.2-7.4         |
| Total Alkalinity (TA)           | 80 ppm or less  |
| Calcium Hardness (CH)           | 200-400 ppm     |
| Cyanuric Acid (Stabilizer)      | below 70 ppm    |
| Total Dissolved Solids (TDS)    | below 1,200 ppm |

Please Note: For vinyl liner pools using biguanide sanitizers, 30-50 ppm of biguanide sanitizer; pH between 7.2-7.4; TA of 80 ppm or less; CH between 200-400 ppm; and TDS below 1,200 ppm.

- 2). Turn off pump and make sure pool water is completely still.  
3). Pour **The Step Stuff Liquid** over steps, particularly over any stained area(s).  
4). Pour **The Step Stuff Powder** over the same stained area(s). Let sit for 2-3 minutes, then brush away.

Tip: To prevent stains from recurring, use a Jack's Magic preventative maintenance product (such as **the vinyl liner blue stuff™**, or **the purple stuff®**). Ask your Jack's Magic dealer for the product that is best for your vinyl pool.

**CAUTION: KEEP OUT OF REACH OF CHILDREN**
